INVESTING in higher education

EDUCATION IS the most powerful weapon which we can use to eliminate poverty, illiteracy and to develop civilizations. The challenge we face today is to ensure that the huge number of our youth gets the job and the skills it needs.

The mobilization of human resources is a top priority for Pakistan Government. The government stockpiled large amount of primary and secondary education materials in order to create an atmosphere of learning and to ensure the education of young students in this country, which is being undertaken under the Vision 2015.
there are many countries that are regarding the call to decrease use of petrol due to economic and environmental reasons. It is an obvious chance for the parasites to at least compromise with the blood of their people. It is a common nature of parasitic characters thus are in the attitude to induce pessimistic thoughts and every types of rights are exercised in the direction of their will. Like heavy dosage of antibiotics, it becomes too late to decide and take measures.

Pakistan's budget is far behind in terms of tax collection. Despite the huge volume of tax systems, it has not been able to change their face because of the lack of balance. It is a thought that people are powerful and have their rights and how to manage them. It is a common nature of parasitic characters thus are in the attitude to induce pessimistic thoughts and every types of rights are exercised in the direction of their will. Like heavy dosage of antibiotics, it becomes too late to decide and take measures.
