3rd International Conference on Biosciences

Biosciences have advanced rapidly and emerged as potential sciences for providing benefits in all the fields of human welfare. In the recent times, the world is exclusively dependent upon continuous scientific progress in biosciences towards a better and sustainable future. Pakistan has a huge potential for harnessing its natural resources by exploiting the current approaches in various spheres of biological research.

Biological Society of Pakistan has already organized two international conferences and intends to organize "3rd International Conference on Biosciences at the Science Block, GC University Lahore (9 -11th May, 2018). The conference will once again bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about various aspects of biological sciences. It will also provide an interdisciplinary forum for researchers and educators to present and discuss the most recent innovations, trends, concerns and practical challenges encountered and the solutions adopted in the fields of Botany, Biotechnology, Environmental Sciences, Microbiology and Zoology.

The conference welcomes participants from all over the world who are interested in exchanging expertise and experiences, and arming themselves with the latest information. The conference organizers are committed to provide valuable scientific parleys in the best possible manner that would leave unforgettable long lasting impression in the minds of national and international participants. We look forward to welcoming you to Lahore in May 2018

Government College University Lahore (GCUL), formerly Government College Lahore, founded in 1864, located in the downtown of city Lahore, the leading educational center in the Indo-Pak Subcontinent, is one of the most reputed public research institution in Pakistan. Its alumni network includes two Nobel Prize laureates, Abdus Salam and Har Gobind Khorana; famous philosopher and national poet of Pakistan, Muhammad Iqbal (Allama); World Court President, Sir Muhammad Zafarullah Khan; four prime ministers of Pakistan, several Rhodes Scholars and many legends of national and international fame.

The City of Lahore

Lahore is the capital and cosmopolitan city of the Pakistani province of Punjab. It is the second-most populous city in Pakistan after Karachi. The city is located in the north-eastern end of Pakistan's Punjab province, near the border with the Indian state of Punjab. This city is ranked as a beta-world city, and is one of Pakistan's wealthiest cities. Lahore is

undoubtedly the historic cultural center of the Punjab region. Famously known as the city of gardens, Lahore remains a major tourist destination in Pakistan. This is also the home of numerous monuments from the Mughal Dynasty, Sikh Empire, and British Raj. Lahore takes the pride of holding some of Pakistan's oldest educational institutions.
